She is straightforward with what needed to be done to get a good grade. I took the compressed class, so there was a quiz and a discussion due every week, plus 3 case studies and an assignment. It's really easy to pass if you turn in your work on time and take some notes while looking at the lessons.

Easiest class ever. If you don't make an A then you made no effort. She wasn't exactly clear about how all her papers should be formatted so I just did them all in APA to be safe. Easy grader just follow the grading rubric. 7 wk course, 4 discussions, 8 quizzes, your papers are

more like 3-4 paragraph essays, project at the end is easy.
