Fantastic class. I was immediately impressed by his use of an open-source textbook because, in his words "The expensive ones were just as good and this one is free". Very helpful, and his uses of geeky pop culture earned him huge bonus points. You have to work and study in his class, but it is very do-able and you will learn from it.

Professor DiFranco is very prompt with grading homework and answering e-mails. He always comments on exams and lets you know what you did wrong. I love his teaching style! If you want an experienced teacher that is prompt and witty, then he's your man!

Very Easy Teacher. I do not know anything about programming and i skipped cop 1000 and still making a B in this class...he does he's grading so easy that you will pass the class if you do the hw. i could of gotten an A if i would of done the tests!!!

That's how easy this class is. Teacher = awesome!

Apr 16th, 2004

Great tchr. Lecture notes avail. at difranco dot net, will help you with h/w and make sure you understand it, BUT YOU MUST ASK for help. In COP2334, 1/2 of the h/w's are in teams, and there are no tests or quizzes. Not enough space in here to say it all!

Attendance isn't required, so if you know the material already this is the prof to take. Does a great job of covering the material and you are mainly graded on your programming and a very few scheduled (not pop) quizzes.
